§ 02 · WHAT YOU WOULD BE BACKING

A festival of open source, inside *a bigger one.*

THE FEST

Elysian is the techfest at USAR, and across its events it has drawn **6000+ people** in total. It runs everything from hackathons and design and robotics competitions to workshops and speaker sessions. FOSS Forge is the open source part of it.

FOSS FORGE 2.0

Last year was two days of teams of three taking on Git Clash, the Pokémon YAML Showdown and the Repo Sprint, with one live leaderboard for everyone to watch. This year we are keeping that festival feel and pushing the creativity further. We are also bringing in **large organisations and non-profits**, so teams get to work on things that matter beyond a scoreboard.

§ 05 · GET IN TOUCH

LET'S TALK

All kinds of *support welcome.*

Every kind of sponsor is welcome: large companies, startups, foundations, non-profits and individuals. We would especially like to hear from large organisations and non-profits, because of what we are building this year.

Money · Prizes · Cloud credits and tools · Mentors and judges · Venue and logistics · Swag · Media and reach

If what you have in mind does not fit a tier, tell us what it is and we will shape something together.
